Section E: Business Responsibility (BR) Information

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/No. Does it extend to the Group/ Joint Ventures/ Suppliers/ Contractors/ Non-Governmental Organisations (NGOs)/ Others?

The Company has defined Code of Business Conduct and Ethics ('Code') for Directors as well as all employees of the Company that covers issues, inter-alia, related to ethics, bribery and corruption. It also covers all dealings with suppliers, customers and other business partners and other stakeholders. The Code forms an integral part of the induction of new employees.

The Company also has a Whistle Blower Policy ('Policy') which enables its directors and employees to report their concerns about unethical behaviour, actual or suspected fraud or violation of the Company's Code and provides safeguards against victimisation of director(s)/ employee(s), who avail of the mechanism.

The Company also has policies for (a) Determining Materiality of Events and Information, to ensure disclosure of any event or information which, pursuant to SEBI regulations is material to determine whether an event or information is material or not and to ensure timely, accurate, uniform and transparent disclosure; and (b) Prevention of Insider Trading and protection of the unpublished price sensitive information.

The copies of all the above-mentioned policies are available on the website of the Company: www.bajajelectricals.com.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

There were no cases of violation of the Company's Code of Conduct in financial year 2020-21. There were 10 cases reported under the Company's Whistle Blower Policy during the year, 3 of which were resolved during the year. The Company has ensured prompt public disclosure of unpublished price sensitive information in order to make such information generally available and is in compliance with the SEBI Insider Trading Regulations. There was 1 shareholder complaint pending at the start of financial year 2020-21 which was resolved subsequently. Further, 1 new complaint was received from the shareholders during the financial year ended on March 31, 2021, which was also attended and resolved during the year. The Company has different mechanisms for receiving and dealing with complaints from various stakeholders like investors, customers, employees and suppliers, etc.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List upto 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities and for each such product, provide the details in respect of resource use (energy, water, raw material, etc.) per unit of product (optional).

a) Fans

For the first time in India, the Premium range of Bajaj ceiling fans bring anti-germ and bye-bye dust features, powered by Advanced Polymer Technology. These fans are also stylishly designed, with an emphasis on providing flair and elegance to your room, along with providing maximum functionality. Also, the Company's 5 star rated Fan named 'Kassels Star' runs on 50-54 watts, as compared to a regular ceiling fan (non-BEE star rated) which consumes 75 watts, whereby the user of the fan will be able to save the electricity consumption.

b) Bajaj LED lightings

Bajaj LED range lighting solution is widely known as one of the best in the market. The Company makes no compromise on the standards it delivers in its products and every product is manufactured with utmost care given to every component.

To make a general comparison, the Company's 7-watts LED bulb delivers as much as 600 lumens more output than a normal 60 watts GLS lamp. All this while saving as much as 85% more electricity than conventional lighting systems. Due to high standards maintained by the Company, Bajaj LED bulbs are able to last for an impressive lifetime of upto 25000 hours. Further, none of Bajaj LED lights use any chemical compounds that are potentially detrimental to the environment. This is in contrast to the CFL or mercury lamps. The Company's range of LED lightning is also safe for domestic usage as it does not emit harmful radiation like ultraviolet light or infrared radiation, chronic exposure, which cause serious health complications.

Also, in view of regular electricity related issues like power cuts or load shedding, especially in the non-metropolitan regions, the range of Bajaj LED lightings is developed to deal with random voltage fluctuations or abrupt discontinuation of electricity. Many of electric LED bulbs have a built-in voltage surge protection mechanism, which safeguards it against surges up to 2 kV. Bajaj LED lights consume less energy that besides keeping the electricity bills light on customers' pockets also helps reduce carbon footprints.

c) High Mast & Transmission Line Towers

The Company has one of the best Transmission Line Towers (TLT) manufacturing facilities at Ranjangaon in Pune districts of Maharashtra, which manufactures a range of towers of 110/132/220/400/765 kV single/double circuit power transmission lines.

The manufacturing facility is ISO 14000 and ISO 9001 certified and is equipped with the most sophisticated, computer controlled state-of-art machineries. The galvanising bath of size 13 mtr length x 1.5 mtr width and 2.5 mtr depth is the biggest and most sophisticated plant in India with automatic CNC control machines and with totally enclosed radio remote controlled galvanising plant imported from Gimeco, Italy. The Company's world class TLT manufacturing facility has been approved and appreciated by Power Grid Corporation of India and all reputed Electricity Boards across the country.

The Company is committed to environment sustainability and therefore it works toward reduction and optimal utilisation of energy, water, raw material, logistics etc. by incorporating new techniques and innovative ideas.
